What exactly is franchising?

The franchise business model is extremely successful. It accounts for nearly 7.6 million direct jobs and 2.5% of the United States GDP.

When you start a franchise business, you can buy into a proven brand and system, knowing that you will be given the support that you will need to be a successful business owner. You are starting your own business, but you are never alone. Your success is the franchisor's success!

SETTING THE STAGE

I will spend the time needed with you to understand what your goals are. You owe it to yourself and your family to start your search with some guidelines in place.

BUSINESS SEARCH

I will begin contacting franchisors on your behalf. You'll never have to visit websites, request information and then wait around to see if a franchise is potentially the right fit, I will do all of that for you.

DISCUSSING FUTURE BUSINESS

I will help you to determine what franchise models best align with your existing skills, and how those transferable skills will help you be a successful business owner.

INTRODUCTION AND DISCOVERY PROCESS

I will introduce you to franchisors so that you can begin to do your due diligence, and learn about their business. I will guide and coach you through the entire process.
