Greg White, Sr., CFC Founder/CEO

Profiture Franchise Consulting can help you realize your dream of business ownership.

I work with my clients to help them find a franchise business that will meet all of their

personal and professional goals.

I have over 20 years of small business ownership experience, and over ten years of experience developing several large national franchise systems.

Search available franchises

What exactly is franchising?

The franchise business model is extremely successful. It accounts for nearly 7.6 million direct jobs and 2.5% of the United States GDP.

When you start a franchise business, you can buy into a proven brand and system, knowing that you will be given the support that you will need to be a successful business owner. You are starting your own business, but you are never alone. Your success is the franchisor's success!

Is franchising a good fit for veterans?

Veterans account for about 7% of the population, 14% of franchisees are veterans, and 65% of franchisors have reported that the number of veteran owned franchises is increasing every year.

Franchisors recognize the entrepreneurial spirit of our service men and women. Veterans have proven to be some of the highest qualified, motivated, and successful business owners of most franchise concepts.

Think about the transferable skills that you can use to start your franchise business. Strong leadership, motivating people, mission driven, are all key qualities of a successful business owner. This makes franchise business ownership a great transition for our service members.

How can Profiture assist you?

There are never any fees for my clients to pay, for my services. If we determine that we want to work together, and we find a franchise business that is a good fit, then the franchisor will pay all of my fees.

SETTING THE STAGE

I will spend the time needed with you to understand what your goals are. You owe it to yourself and your family to start your search with some guidelines in place.

BUSINESS SEARCH

I will begin contacting franchisors on your behalf. You'll never have to visit websites, request information and then wait around to see if a franchise is potentially the right fit, I will do all of that for you.

DISCUSSING FUTURE BUSINESS

You owe it to yourself to understand what franchise models best align with your existing skills, and I will help you get that picture into focus.

INTRODUCTION AND DISCOVERY PROCESS

I will introduce you to franchisors so that you can begin to do your due diligence, and learn about their business. I will guide and coach you through the entire process.
